SUMMARY

Computer Engineering student at ENIT, passionate about emerging technologies and innovative solutions, with a strong curiosity for AI, machine learning, and deep learning. Proven hands-on experience across web development, mobile applications, IoT, and microservices architectures through multiple academic and associative projects. Rigorous, curious, and highly motivated, I am seeking an internship to contribute to concrete and enriching projects.

EXPERIENCE & ACADEMIC PROJECTS

IoT Medical Telemonitoring Platform PFA2 (In Progress)	*2025 – 2026*
Microservices architecture (Docker, Kafka, Spring Boot, MQTT, React) for real-time vital signs collection and analysis	
Magical Forest Game (Smurfs Game) Academic Project	*2025 – 2026*
Developed a graphical game using C# and .NET with MVVM architecture	
Appointment Scheduling Application Academic Project	*2024 – 2025*
Designed and developed a web-based appointment management application	
International Records Management Collaborative Project	*2024 – 2025*
Backend development + task coordination – Scrum methodology (sprints, daily meetings)	
Intelligent Nutrition Chatbot PFA1	*2024 – 2025*
Developed an LLM-based chatbot with interactive web interface	
Smart Pen for Dyslexic Users IEEE Project	*2025 – 2026*
Flutter / Bluetooth – Mobile app connected to a smart pen for speech and learning assistance	
Observership Internship Tunisie Telecom	Summer 2025
Telecom infrastructure exposure – Fiber optic installation and maintenance observation	
Java Application with GUI Academic Project	*2024*
Java / OOP – Desktop application with GUI, maintainable architecture	
Library Management System Academic Project	*2024*
Designed and developed a console-based application in C for library book management	

EDUCATION

Bachelor's Degree in Mathematics

Lycée Tabarka | *2021 – 2022*

- Honors: good

Preparatory Cycle: Mathematics & Physics

Institute of Preparatory Engineering Studies of Monastir (IPEIM)
| *2022 – 2024*

- Rank: 405/1700 in the National Engineering School Entrance Exam

Engineering Cycle: Computer Engineering

National School of Engineers of Tunis (ENIT)
| 2024 – Present

- Specialization: Computer Engineering

SKILLS

- Langages: Java, Python, C/C++/C#, JavaScript, HTML/CSS, SQL
- Frameworks: Spring Boot, JEE, Flask, Flutter, React
- Architecture & Outils: Microservices, Docker, Kafka, MQTT, Git
- Bases de données: MySQL, InfluxDB, MongoDB
- Méthodologies: Scrum, travail en équipe, gestion de projet
- Domaines: IoT, développement web/mobile, systèmes distribués, infrastructures IT
- Réseaux : CCNA1 (Cisco), CCNA2 (Cisco), TCP/IP, adressage IP, modèles OSI/TCP
